Montreal School Seeks Partner A Novel Way to Recycle Bottle Caps

Robert More from ACCESS is looking for a partner in the Student Stock Exchange. We have a group of special needs students (Step -Up) who are producing beer cap fishing lures. The idea is to have the "Step Up" students produce the lures as the production department. We are looking for another team to pick up the sales, marketing and /or media. This is an ideal merge for a school that has a solid business team, but is in need of a product. Anyone interested, please contact Robert More. See more SAMPLES at: [ACCESSeVENTURE](#)
